The fifth report on Morocco's reputation in the world

The Royal Institute for Strategic Studies (IRES), in partnership with Reputation Institute, finalized, in mid-July 2019, the fifth edition of its report on Morocco's reputation in the world. The 2019 survey, focused on the analysis of the Kingdom's external reputation in the G-8 countries and in 16 developed or emerging countries as well as the study of the country's internal reputation, based on 17 attributes, assembled in three dimensions, mainly the quality of life, level of development and the quality of institutions.

The water issue in Morocco

Following the launch of the national study on the water issue on June 2019, IRES has just started a regional study that focuses on the NEXUS approach for the assessment of water resources management in the Souss-Massa watershed.

The report on employment and value creation

IRES has completed the report on the relationship between employment and value creation at the international level. In addition to defining key concepts related to the respective issues of employment and value creation, this report highlights the global structural changes to 2030 and beyond (2050) that would have an impact on how to create jobs and produce value; as well as new aspirations that would shape new forms of employment that will emerge. The study focusses on the revolution of productive systems as a result of digital transformation, platforming and new forms of value creation.
