Asia-Pacific dynamics and its impact on global balances: what effects on Morocco ?

IRES has finalized the report of the study mentioned above, which shed light on the implications of geostrategic dynamics of the Asia-Pacific on Morocco's international positioning and proposed some policy options to allow Morocco to anticipate these changes.

Relations between Morocco and Mauritania

The final report of this study examined the reality of cooperation between Morocco and Mauritania and the prospects of its development, taking into account key mutations occurring at the international and regional levels.

The study on economic diplomacy of Morocco

The report of the first phase of this study aims to establish an overview of the Morocco's economic diplomacy, through reference to some successful international experiences.

The relations between Morocco and South and East Africa countries

The preliminary report of this study was devoted to the analysis of relations between Morocco and South and East Africa countries, on political and economic levels. It also focused on the review of the perception of Morocco's image in these two sub-regions.

Launch of a study "Inequalities and social cohesion in Morocco: challenges and public policy orientations"

This second study of IRES on inequalities aims to examine the effectiveness of public policies of Morocco, in terms of reduction of inequalities, preservation of social cohesion and promotion of a middle class. The study will be dedicated, also, to make some policy proposals in order to improve the process of creation and distribution of national wealth.

Morocco, an emerging country?

IRES launched this study with the objective to establish a diagnosis of Morocco's performances compared to emerging countries and to propose relevant public policies so as to accelerate the process of emergence of Morocco and to improve its international positioning.

IRES Watch
